

## 3D TOF CAMERAS

Developed for indoor applications, our compact 3D Time-of-Flight (ToF) depth cameras are made to measure volume, recognize gestures, capture movement and more. Benefit from factory calibrated depth data, quick and easy setup as well as an option to go for a more robust aluminium casing - all in a compact form-factor.

	Product	Resolution	FoV (H; V)	Range	Weight	Interface	Frame rate	Enclosure
	Terabee 3Dcam 80x60	80 x 60 px	74° x 57°	Close-range mode 0.2 to 1.2m  Standard mode 1 to 4m	83g	USB	Fixed 30fps	Aluminium
	TeraRanger Evo 64px	8 x 8 px	15° x 15°	0.1 to 5m	15g	USB, UART	Up to 130fps	ABS
